

FLVS Global

COURSE CATALOG

A young man with dark hair, wearing a blue t-shirt, is smiling warmly at the camera. He is sitting at a desk in a classroom, holding a blue pen over an open notebook. In the background, other students are visible, some looking down at their work. The overall atmosphere is bright and positive.

flvs

Looking for innovative tools to empower your teachers and engage your students? FLVS® can help. We provide teacher-driven, student-centric solutions to help blend digital learning into your classrooms. FLVS started as a school and today we are more. We are proud to serve students, schools, and districts across the country and around the world.

FLVS designs courses specifically for schools and districts who want to provide their students with individual attention, dynamic learning experiences, and flexibility that only digital learning provides.

Equip your teachers with our rigorous, robust curriculum to ensure your students are college and career ready. FLVS curriculum is also optimized to provide a seamless learning experience within the LMS platform of your choice. For schools and districts that do not have an LMS, we also offer a fully-hosted solution to save you the costs of maintaining and updating your own infrastructure.

Aligned to national standards, our interactive curriculum includes NCAA-approved core courses, electives, Advanced Placement®*, and Career & Technical Education.

Happy browsing!

HIGH SCHOOL

English

English I

Credit 1

Options **TFC**

Develop language arts skills by reading, writing, listening, viewing, and speaking. This course provides text-based research and writing opportunities. You will learn to use the English language to successfully express yourself.

English II

Credit 1

Options **TFC**

Encounter new vocabulary, refine the grammar and mechanics of your writing, and engage in thought-provoking projects. Throughout the course, you will discover how the human experience is the foundation of the best stories, plays, poems, films, and articles.

English III

Credit 1

Options **TFC**

Acquire the language, reading, writing, and speaking/listening skills necessary for success in college, career, and beyond. Become a critical reader and thinker as you dive deeply into the texts presented throughout this course. You will learn how to effectively research and integrate your findings, as well as cite your sources.

English IV

Credit 1

Options **TFC**

Build your analytical and critical thinking skills through close readings of a variety of literature and informational texts. Master the writing process with relevant, real-world research activities, and integrate your findings in the completion of argumentative and informational essays. This interactive course presents multiple opportunities to apply your learning in creative and expressive ways.

English IV: College Prep

Credit 1

Options **TFC**

Preparing you for the demands of reading, writing, and communicating in college and beyond, you will hone your skills in creative and analytical writing and apply concepts learned to closely read and analyze contemporary and historical informational text.

Mathematics

Advanced Algebra with Financial Applications

Credit 1

Options **F C**

This course walks you through the information needed to make the best decisions with money. Advanced Algebra with Financial Applications is an advanced course incorporating real-world applications, collaboration, and calculations using technology. Learn the formulas used to determine account balances, monthly payments, total costs, and more.

Algebra I

Credit 1

Options **T F C**

Algebra I emphasizes the importance of algebra in everyday life through hundreds of real-world examples. Assessments are designed to ensure that your understanding goes beyond rote memorization of steps and procedures. Upon successful course completion, you will have a strong foundation in Algebra I and will be prepared for other higher-level math courses.

Algebra I A

Credit 1

Options **F C**

Algebra and the world around you. This course will review some of the fundamental math skills you learned in middle school, and then get you up to speed on the basic concepts of algebra. Each module takes you step-by-step into the world of integers, equations, graphs and data analysis.

Algebra I B

Credit 1

Options **F C**

It's time to finish what you started. In Algebra IA, you learned that algebra is an efficient way to solve some real-world problems. You also acquired the power to do a lot of the important basic work. Now, after a quick review, you'll be ready to tackle Algebra IB. Together, Algebra IA and IB will meet your Algebra I requirement.

Algebra II

Credit 1

Options **T F C**

Starting with a review of basic algebra, you will learn polynomials, quadratic equations, exponential and logarithmic relations, and probability and statistics. Throughout the course, these mathematical concepts are applied to everyday occurrences to demonstrate how the world around us functions.

Algebra Readiness

Credit 0

Options **F C**

Algebra Readiness is a self-guided mini-course designed to assess your preparedness for Algebra, and to help raise your pre-algebra competencies as needed. Although this is a NON-CREDIT course, taking it will increase the likelihood of your future success in Algebra I.

Calculus Honors

Credit 1

Options **T F C**

Study limits, continuity, differentiation, integrated algebraic, trigonometric, and transcendental functions, and the applications of derivatives and integrals.

Geometry

Credit 1

Options **T F C**

Geometry exists everywhere in the world around you. We use it to build bridges, to design maps, or to create perspective in paintings. Throughout this course, you will use problem solving and real-world applications to gain the knowledge of geometric concepts and their practical uses.

Integrated Mathematics I

Credit 1

Options **T F C**

Integrated Mathematics I is the foundation - the skills acquired in this course contain the basic knowledge needed for all future high school math courses. The content in this course is tied to real-world applications like sports, travel, business, and health. This course is designed to give you the skills and strategies to solve all kinds of mathematical problems.

Integrated Mathematics II

Credit 1

Options **TFC**

Algebra and geometry are everywhere. Engineers use them to build highways and bridges. Artists use them to create perspective in their paintings, and mapmakers help travelers find things using the points located on grids. Throughout this course, you will travel a mathematical highway illuminated by spatial relationships, reasoning, connections, and problem solving.

Integrated Mathematics III

Credit 1

Options **TFC**

Mathematical concepts are applied to everyday occurrences such as earthquakes, stadium seating, and purchasing movie tickets. Investigate the effects of an equation on its graph through the use of technology.

Liberal Arts Mathematics I

Credit 1

Options **TFC**

This course designed to help you strengthen your mathematical skills for study beyond Algebra I. The topics include, but are not limited to, linear equations and inequalities, operations with polynomials, data representation and analysis, geometric constructions, symmetry, similarity, systems of linear equations and inequalities, functions, quadratic equations, exponential equations, rational equations, radical equations, and graphing equations and functions.

Liberal Arts Mathematics II

Credit 1

Options **FC**

This course is an excellent third or fourth year math option. You will journey through Rational Numbers, Seeing Structure in Expressions, Reasoning with Equations and Inequalities, Interpreting Functions, Arithmetic with Polynomials and Rational Expressions, Linear, Quadratic, and Exponential Models, Expressing Geometric Properties with Equations, Conditional Probability and the Rules of Probability, and Making Inferences and Justifying Conclusions.

Math for College Readiness

Credit 1

Options **T**

Acquire skills needed for success in college-level mathematics. You will explore expressions, equations, statistics, and probability to learn algebra and geometry skills required for entry into college-level courses.

Pre-Algebra

Credit 1

Options **TFC**

Gain a true understanding of higher-level concepts such as functions and systems of equations while experiencing intrigue and fun in this hands-on course full of slideshows, applications, videos, and real-world scenarios.

Pre-Calculus Honors

Credit 1

Options **TFC**

As a mathematical analyst, you will investigate how advanced math concepts can solve problems encountered in operating national parks. This course includes analytical geometry and trigonometry.

Probability and Statistics Honors

Credit 1

Options **TFC**

This course will introduce students to exploring data, sampling and experimentation by planning and conducting studies, anticipating patterns using probability and simulation, and employing statistical inference to analyze data and draw conclusions.

Science

Anatomy and Physiology

Credit 1

Options **TFC**

Explore the human body and learn how you can help your body cope with many different situations. You will study the structure, location, and function of various systems within the human body and how these systems interact.

Biology I

Credit 1

Options **TFC**

Explore the structure, function, diversity, and evolution of living matter by taking an in-depth look at the fundamental characteristics of living organisms. You will have the opportunity to perform hands-on lab activities and develop relationships through collaborative learning.

Chemistry I

Credit 1

Options **TFC**

This course provides a foundation for learning chemistry concepts, including: scientific inquiry, interactive experiences, higher-order thinking, collaborative projects, real-world application, and a variety of assessments.

Earth Space Science

Credit 1

Options **TFC**

This laboratory course focuses on the study of space and the geologic and atmospheric forces that shape our world. Through experimentation and investigation, you will explore Earth's cycles, including the geosphere, hydrosphere, cryosphere, atmosphere, and carbon cycle.

Marine Science

Credit 1

Options **TFC**

Delve deeply into Earth's bodies of water and study geologic structures and how they impact the oceans. Investigate characteristics of various populations of aquatic life, patterns of distribution, and ongoing changes occurring in our ecosystem.

Physical Science

Credit 1

Options **TFC**

Build a foundation for studying physical sciences, including basic physics and chemistry, as you explore this interactive course. Topics include forces and motion, energy through waves, electricity and magnetism, the matter around us, chemical bonding, and reactions.

Physics I

Credit 1

Options **TFC**

Discover the contributions of geniuses like Galileo, Newton, and Einstein by learning about the concepts, theories, and laws that govern the interaction of matter, energy, and forces.

Social Studies

American History I

Credit 1

Options **F C**

In this course, you will explore the history of the United States and analyze the cause and effect in historical events. You will investigate history by using the tools of a historian to examine the historical, geographic, political, economic, and sociological events that influenced the development of the United States.

American History II

Credit 1

Options **F C**

In this course, you will investigate the people, events, and ideas that have shaped the United States from the end of the Civil War through today. You are asked to analyze and evaluate decisions made by political, business, and military leaders. Emphasis is placed on connections between events of the past and present.

Comprehensive American History

Credit 0.5

Options **F C**

The United States began as an experiment in freedom and democracy. Since its establishment, the country and its people have endured social, political, and economic revolutions. In this course, you will investigate the people, events, and ideas that have shaped the United States from the end of the Civil War through today.

Economics with Financial Literacy

Credit 0.5

Options **T F C**

Understanding economics means thinking about how scarcity, or limited resources, requires us to make choices and evaluate one option against others. The purpose of this course is to help you become a smart consumer who understands the flow of an economy between individuals, businesses, governments, and the rest of the world.

Global Studies

Credit 0.5

Options **T F C**

With more than seven billion people living in the world today, there are countless newsworthy stories waiting to be told. In this course you become a real-world news reporter, researching and writing for the Global News Network. You will explore human rights, the environment, global security, international economic systems, and much more.

United States Government

Credit 0.5

Options **T F C**

Explore the principles that inspired the Constitution and Bill of Rights and examine each branch of government, the election process, and how you can impact public policy. You will also discover how the United States interacts with other countries.

United States History

Credit 1

Options **T F C**

Investigate the people, events, and ideas that have shaped the United States from the end of the Civil War through today while applying what you learn to real-world problems.

World History

Credit 1

Options **T F C**

Join Ali and Soo-jin, our modern time travelers, as they journey through history. Discover the connections between world events and eras, from the Roman Empire through the Industrial Revolution, and explore development in our modern world as well as the implications that historical events have on us today.

Physical Education

Fitness Lifestyle Design

Credit 0.5

Options **TFC**

Discover habits of body and mind that will lead to a healthier lifestyle. You will measure your current fitness level, nutrition knowledge, and create a plan for achieving your individual goals.

Health Opportunities through Physical Education (HOPE)

Credit 1

Options **TFC**

Your path to lifelong fitness starts here. You'll set a variety of goals that will guide you toward leading a healthy lifestyle. During your journey, you'll perform daily physical activity, design a personal fitness plan that suits your interests, and keep track of your fitness progress. You'll monitor your exercise and nutrition using a personalized wellness plan.

Life Management Skills

Credit 0.5

Options **TFC**

Learn how to deal with real issues that impact your everyday life, such as nutrition, substance abuse, stress, and health. This course provides you with the facts you need to make important and informed decisions.

Personal Fitness

Credit 0.5

Options **TFC**

Get started on your path to lifelong fitness by setting goals and working toward them. Along the way, you'll perform daily physical activity, design a fitness plan, and keep track of your progress using an interactive wellness plan.

World Languages

Chinese I

Credit 1

Options **TFC**

Learn conversation elements in Mandarin Chinese, including greetings, introductions, and the exchange of basic information with others.

Chinese II

Credit 1

Options **TFC**

Develop your communication skills at a more advanced level, including listening, speaking, reading, and writing in Mandarin Chinese.

Chinese III Honors

Credit 1

Options **TFC**

Learn more about Chinese culture, including the origins, anecdotes, and etiquette for various cultural settings. You will also compare and contrast the Chinese culture with your own as you continue to build knowledge of vocabulary, sentence structure, and grammar.

French I

Credit 1

Options **TFC**

Learn basic French grammar to help build your fluency and understanding, and apply what you learn through interactive games, written practice, and listening and speaking exercises.

French II

Credit 1

Options **TFC**

Strengthen your French listening, speaking, reading, and writing skills with engaging and interactive videos, dialogs, presentations, self-checks, and much more.

Latin I

Credit 1

Options **TFC**

Develop a foundation in Latin grammar and vocabulary while also learning about the mythical Olympian gods and Roman history.

Latin II

Credit 1

Options **TFC**

Building on your knowledge of Latin grammar and vocabulary, you will also explore Roman engineering, art, commerce, and its system of laws to demonstrate the flexibility of the language.

Latin III Honors

Credit 1

Options **TFC**

Strengthen your Latin vocabulary skills and develop an appreciation for well-crafted writing by visiting the library of great authors. You will read the timeless words of Roman poets, storytellers, and orators and recognize why Latin, and those who speak it, are still relevant today.

continued

Spanish I

Credit 1

Options **TFC**

Learn basic Spanish grammar to help build your fluency and understanding, and apply what you learn through interactive games, written practice, listening, and speaking exercises.

Spanish II

Credit 1

Options **TFC**

Strengthen your Spanish listening, speaking, reading, and writing skills while experiencing the beauty and expressiveness of a language that is shared by different people and cultures throughout the world.

Spanish III

Credit 1

Options **TFC**

The purpose of this course is to provide many experiences where you can use Spanish. Completely immersed in Spanish, you will speak, listen, read, write, and collaborate with other students in Spanish in this course. You will also gain knowledge and perspectives about Spanish-speaking countries and from Spanish-speaking people.

Spanish IV Honors

Credit 1

Options **TFC**

In this course you will develop a strong command of the Spanish language, with proficiency in integrating language skills and synthesizing written and aural materials, the formal writing process, extensive interpersonal and presentational speaking and writing practice, and aural comprehension skills through quality, authentic, and level-appropriate audio and video recordings. You will be exposed to literature, historical and current events of Spanish-speaking countries through authentic newspapers and magazines, music, movie, radio and television productions, literary texts, and virtual visits online.

Spanish for Spanish Speakers

Credit 1

Options **FC**

Bienvenidos! Welcome! The purpose of this course is to enable those whose heritage language is Spanish to develop, maintain, and enhance proficiency in your home language by reinforcing and acquiring skills in listening, speaking, reading, and writing, including the fundamentals of Spanish grammar.

Advanced Placement

AP Art History

Credit 1

Options **TFC**

Within AP Art History, you will explore the interconnections between art, culture, and historical context through the critical lenses of artistic expression, cultural awareness, and purpose.

AP Biology

Credit 1

Options **TFC**

This challenging two-semester course engages you in a wide variety of activities. There is substantial emphasis on interpreting and collecting data in virtual labs, writing analytical essays, and mastering biology concepts.

AP Calculus AB

Credit 1

Options **TFC**

Comparable to college and university calculus, this course helps prepare you for the Calculus AB Advanced Placement exam. Study limits, continuity, differentiation, integrated algebraic, trigonometric, and transcendental functions, and the applications of derivatives and integrals.

AP Calculus BC

Credit 1

Options **TFC**

Comparable to college and university calculus, this course will help prepare you for the Calculus BC Advanced Placement exam. Study limits, continuity, differentiation, and integrated algebraic, trigonometric, and transcendental functions, as well as explore applications of derivatives and integrals, infinite series, and parametric and polar equations.

AP Computer Science A

Credit 1

Options **TFC**

Develop the skills required to write programs or parts of programs to correctly solve specific problems. You will learn design techniques to make programs understandable, adaptable, and reusable.

AP English Language and Composition

Credit 1

Options **TFC**

Read and analyze prose written in various periods, disciplines, and rhetorical contexts while gaining an understanding of the interactions among a writer's purposes, audience expectations, and subjects.

AP English Literature and Composition

Credit 1

Options **TFC**

Develop critical standards for the appreciation of literary works and increase your sensitivity to literature as a shared experience.

AP Environmental Science

Credit 1

Options **TFC**

Learn the scientific principles, concepts, and methodologies required to understand the interrelationships of the natural world. You will evaluate the risks associated with environmental problems and examine alternative solutions in virtual labs.

continued

AP Human Geography

Credit 1

Options **TFC**

Explore the patterns and processes that impact the way humans understand, use, and change Earth's surface. Geographic models, methods, and tools help you examine the effect that human social organization and interconnections have on our world.

AP Macroeconomics

Credit 0.5

Options **TFC**

Understand the choices you make as a producer, consumer, investor, and taxpayer. This course provides you with the knowledge and decision-making tools necessary for understanding how a society must organize its limited resources to satisfy its unlimited wants.

AP Microeconomics

Credit 0.5

Options **TFC**

By taking on the role of a leader at a fictitious company, you will learn fundamental economic concepts, including scarcity, opportunity costs and trade-offs, productivity, economic systems and institutions, exchange, money, and interdependence.

AP Psychology

Credit 1

Options **TFC**

Immerse yourself in modern psychological techniques investigating the ethics and morality of human and animal research. In this college-level course, you will learn the psychological facts, principles, and phenomena associated with each major area of psychology and enhance your scientific critical thinking skills.

AP Statistics

Credit 1

Options **TFC**

Actively construct your own understanding of the methods, interpretation, communication, and application of statistics. Each unit is framed by ideas and questions designed to provide you with a deep understanding of the concepts at hand, rather than memorization and emulation.

AP United States Government and Politics

Credit 0.5

Options **TFC**

Research the roles of the media, political parties, interest groups, states, candidates, bureaucracy, and the public in the governmental process. You will experience the production of policy building in multiple economic and social settings.

AP United States History

Credit 1

Options **TFC**

Examine key themes and events of our history, including American identity, diversity, religion, culture, war, and slavery, as well as economic, political, and demographic changes. You will also analyze globalization and environmental issues.

Electives

Advertising & Sales Promotion

Credit 0.5

Options

In Advertising and Sales Promotions, you'll see exactly how marketing campaigns, ads, and commercials are conceived and brought to life and even meet some of the creative folks who produce that memorable media. You'll learn about different career opportunities in the field and discover ways that you too can be a part of this exciting, fast-paced industry.

African American History

Credit 1

Options

In this course, you'll learn about the political, economic, social, religious, and cultural factors that have influenced African American life, come face to face with individuals who changed the course of history, and explore how the African American story still influences current events today.

Agriscience I: Introduction

Credit 0.5

Options

In this course, you will learn more about the development and maintenance of agriculture, animal systems, natural resources, and other food sources. You will also examine the relationship between agriculture and natural resources and the environment, health, politics, and world trade.

Agriscience II: Sustaining Human Life

Credit 0.5

Options

In Agriscience II, you'll build on your existing knowledge of plant science and delve deeper into important areas such as soil science and weed management. You'll learn more about horticulture and plant science trends from creating hybrid species to growing edible plants in unlikely places.

Animation

Credit 1

Options

In this course, you will learn how to use animation tools to conceptualize and bring your creations to life. You'll learn the ins and outs of creating 2D and 3D animation, from start to finish. You'll even begin working on our own design portfolio and get hands on experience with creating your own animation projects. Learning about Animation could lead to a thriving career in the growing world of technology and animation.

Anthropology I: Uncovering Human Mysteries

Credit 0.5

Options

The aim of anthropology is to use a broad approach to gain an understanding of our past, present and future, and in addition address the problems humans face in biological, social and cultural life. This course will explore the evolution, similarity and diversity of humankind through time.

Anthropology II: More Human Mysteries

Credit 0.5

Options

Anthropology has helped us better understand cultures around the world and through different time period. This course continues the study of global cultures and the ways that humans have made sense of their world. We will examine some of the ways that cultures have understood and gave meaning to different stages of life and death.

Archaeology

Credit 0.5

Options

The field of archeology helps us to better understand the events and societies of the past that have helped to shape our modern world. This course focuses on this techniques, methods, and theories that guide the study of the past. You will learn how archaeological research is conducted and interpreted, as well as how artifacts are located and preserved.

continued

Art History and Criticism I Honors

Credit 1

Options **TFC**

Critique and compare significant works of art and architecture from Prehistory through the 21st century. You will analyze art history and criticism methodologies, explore media and techniques used by artists from various cultures and time periods, and learn appropriate terminology for discussing artwork from around the world.

Art in World Cultures

Credit 0.5

Options **FC**

Who is the greatest artist of all time? You will learn about some of the greatest artists while also creating art of your own, including digital art. We will explore the basic principles and elements of art, learn how to critique art, and examine some of the traditional art of the Americas, Africa, and Oceania in addition to the development of Western art.

Astronomy: Exploring the Universe

Credit 0.5

Options **FC**

Since the first glimpse of the night sky, humans have been fascinated with the stars, planets, and universe that surrounds us. This course will introduce you to the study of astronomy, including its history and development, basic scientific laws of motion and gravity, the concepts of modern astronomy, and the methods used by astronomers to learn more about the universe.

Biotechnology: Unlocking Nature's Secret

Credit 0.5

Options **FC**

In today's world, biotechnology helps us grow food, fight diseases, and create alternative fuels. In this course, you will explore the science behind biotechnology and how this science is being used to solve medical and environmental problems.

Careers in Criminal Justice

Credit 0.5

Options **TFC**

The criminal justice system offers a wide range of career opportunities. In this course, you will explore different areas of the criminal justice system, including the trial process, the juvenile justice system, and the correctional system.

College and Career Readiness

Credit 0.5

Options **TFC**

This course will show you how to prepare for, get accepted to, and pay for college. You will explore different career and education pathways, study interview techniques and networking tips, create smart resumes, and learn how to plan for a successful future. Throughout the course you will be coached by Mawi Asgedom, a Harvard graduate and a student leadership expert who has trained more than a million students. Opportunity is knocking. Are you ready?

Concepts of Engineering & Technology

Credit 1

Options **FC**

In Concepts of Engineering and Technology, you will learn more about engineering and technology careers and what skills and knowledge you'll need to succeed in these fields. You'll explore innovative and cutting-edge projects that are changing the world we live in and examine the design and prototype development process. Concepts of Engineering and Technology will also help you understand the emerging issues in this exciting career field.

Cosmetology I: Cutting Edge Styles

Credit 1

Options **FC**

You will explore career options in the field of cosmetology. Research into some of the common techniques used in caring for hair, nails, and skin in salons, spas, and other cosmetology-related businesses will also be presented.

Creative Photography I

Credit 1

Options

Develop your photography knowledge, including the basics of lighting, shutter speed, and composition. Gain an understanding of professional photography, learn what creates an eye-catching photo, and build a portfolio of images. **You must have access to a digital camera (cell phone cameras do not meet the requirement) to take this course.**

Creative Writing

Credit 0.5

Options

Through creative writing, we can come to understand ourselves and our world a little bit better. This course provides you with a solid grounding in the writing process, from finding inspiration to building a basic story to using complicated literary techniques and creating strange hybrid forms of poetic prose and prose poetry.

Criminology: Inside the Criminal Mind

Credit 0.5

Options

In this course, we will study the field of Criminology—the study of crime. We will look at possible explanations for crime from the standpoint of psychological, biological and sociological perspectives, explore the categories and social consequences of crime, and investigate how the criminal justice system handles not only criminals, but also their misdeeds.

Critical Thinking and Study Skills

Credit 0.5

Options

Increase your success in high school and beyond by learning proven study techniques and test-taking skills. This half-credit course teaches the ACE test-taking method to increase scores on key tests such as the ACT, SAT, and tests for graduation. Throughout the course, Mawi Asgedom, a Harvard graduate who was the first in his family to attend college, will coach you. Mawi is a student success expert who has trained more than a million students.

Culinary Arts I: Introduction

Credit 0.5

Options

This course will give you the basic fundamentals to start working in the kitchen and gaining experience as you explore and establish your talents for cooking and preparing food in a creative and safe way. You will learn safety measures as well as enhance your knowledge of various types of foods and spices.

Dave Ramsey's Foundations in Personal Finance

Credit 0.5

Options

Dave Ramsey's Foundations in Personal Finance is designed to help change the way you look at money forever. This course is filled with tips on saving, budgeting, debt, investing, and much more! ***The contents of this course are produced by Ramsey Solutions™ based upon the personal finance teachings of Dave Ramsey®. The views, information, and opinions expressed in the course are exclusively those of Ramsey Solutions and Dave Ramsey. They are not those of the State of Florida, Florida Virtual School, its agents, affiliates, or employees. This course provides elective credit only.***

Digital Information Technology

Credit 1

Options

Diving into this exciting course provides you with the foundational skills needed for future careers in game development, web design, software engineering and even military defense. You'll explore Microsoft Office online applications, digital design, emerging technologies, operating systems, and much more! Learn your strengths and how they relate to potential career opportunities. This course serves as a prerequisite to many career and technical education programs of study.

continued

Digital Photography I: Creating Images with Impact

Credit 0.5 The Digital Photography I course focuses on the basics of photography, including building an understanding of aperture, shutter speed, lighting, and composition. You will be introduced to the history of photography and basic camera functions. You will use the basic techniques of composition and camera functions to build a portfolio of images.

Options **F C**

Digital Photography II: Discovering Your Creative Potential

Credit 0.5 In this course, we will examine various aspects of professional photography, including the ethics of the profession, and examine some of the areas that professional photographers may choose to specialize in, such as wedding photography and product photography. We will also learn more about some of the most respected professional photographers in history and we will learn how to critique photographs in order to better understand what creates an eye catching photograph.

Options **F C**

Early Childhood Education

Credit 0.5 Want to have an impact on the most important years of human development? You will learn how to create fun and educational environments for children, how to keep the environment safe for children, and how to encourage the health and well-being of infants, toddlers, and school-aged children.

Options **F C**

ELL Success I

Credit 0.5 Gain the skills to help you succeed in all areas of your life. You will learn how to take action, set goals, manage your time, and help your peers. ***This course is recommended for ELL (English Language Learner) students but open to all students.***

Options **T F C**

ELL Success II

Credit 0.5 Learn how to accelerate your language acquisition in reading, writing, speaking, and listening. This course will teach you how to get organized, prepare for your classes, and improve your test scores. ***This course is recommended for ELL (English Language Learner) students but open to all students.***

Options **F C**

Entrepreneurship I: Starting Your Business

Credit 1 Do you dream of owning your own business? This course can give you a head start in learning about what you'll need to own and operate a successful business. You will explore creating a business plan, financing a business, and pricing products and services.

Options **F C**

Fashion and Interior Design

Credit 1 In this course, you'll explore what it is like to work in the industry by exploring career possibilities and the background that you need to pursue them. Get ready to try your hand at designing as you learn the basics of color and design then test your skills through hands-on projects.

Options **F C**

Forensic Science

Credit 1 Fingerprints. Blood spatter. DNA analysis. Discover how clues and data are recorded and preserved, and examine some of the basic scientific principles that guide forensic laboratory processes like DNA testing, toxicology, and material analysis. This course reviews criminal investigations, with a focus on pathology, autopsies, and crime scene analysis, as well as techniques and practices of forensic scientists during a crime scene investigation (CSI).

Options **T**

Forensic Science I

Credit	0.5	Forensic science applies scientific knowledge to the criminal justice system. This course focuses on some of the techniques and practices used by forensic scientists during a crime scene investigation (CSI). Starting with how clues and data are recorded and preserved, you will follow evidence trails until the CSI goes to trial, examining how various elements of the crime scene are analyzed and processed.
Options	F C	

Forensic Science II

Credit	0.5	Although the crime scene represents the first step in solving crimes through forensic science, the crime laboratory plays a critical role in the analysis of evidence. This course focuses on the analysis of evidence and testing that takes place within this setting. We will examine some of the basic scientific principles and knowledge that guides forensic laboratory processes, such as those testing DNA, toxicology, and material analysis.
Options	F C	

Foundations of Programming

Credit	1	Learn the skills required to be competitive in today's high tech workforce. This course covers the fundamentals of programming using the computer language Python. It provides you with the concepts, techniques, and processes associated with computer programming and software development. You'll also explore the vast programming career opportunities available in this high-demand field.
Options	T F C	

Foundations of Web Design

Credit	1	Explore interactive, real-world scenarios to learn basic web design principles. From HTML to Adobe Dreamweaver CS6 and Photoshop CS6, this course builds a strong foundation of web design skills. All necessary software is provided on a virtual desktop—no downloads required!
Options	T	

Gothic Literature

Credit	0.5	This course will focus on the major themes found in Gothic literature and demonstrate how the core writing drivers produce, for the reader, a thrilling psychological environment. Terror versus horror, the influence of the supernatural, and descriptions of the difference between good and evil are just a few of the themes presented.
Options	F C	

Great Minds in Science

Credit	0.5	Like Edison, Einstein, Curie, and Newton, the scientists of today are asking questions and working on problems that may revolutionize our lives and world. This course focuses on 10 of today's greatest scientific minds. Each unit takes an in-depth look at one of these individuals, and shows how their ideas may help to shape tomorrow's world.
Options	F C	

Guitar I

Credit	1	This introduction to the basics of music and guitar includes music notation and musical styles. You will learn practice skills, play the guitar, and perform for your instructor throughout the course. No prior music experience is necessary, but you must have your own six-string guitar and a way to record and submit a video performance to your instructor.
Options	T	

Health Science I: Life Management Skills

Credit	0.5	In this course, you will be introduced to the various disciplines within the health sciences, including toxicology, clinical medicine, and biotechnology. You will explore the importance of diagnostics and research in the identification and treatment of diseases.
Options	F C	

continued

Health Science II: Patient Care & Medical Services

Credit **1** Health Science II is designed to further your understanding of the health care workplace, including patient and caregiver interactions and how various members of the health care team work together to create an ethical, functional and compassionate environment for patients.

Options **F C**

History of the Holocaust

Credit **0.5** In this course, you will study the history of anti-Semitism; the rise of the Nazi party; and the Holocaust, from its beginnings through liberation and the aftermath of the tragedy. The study of the Holocaust is a multi-disciplinary one, integrating world history, geography, American history, and civics.

Options **F C**

Hospitality and Tourism

Credit **0.5** This course will introduce you to the hospitality and tourism industry, including hotel and restaurant management, cruise ships, spas, resorts, theme parks, and other areas. You will learn about key hospitality issues, the development and management of tourist locations, event planning, marketing, and environmental issues related to leisure and travel.

Options **F C**

Human Geography

Credit **0.5** You will explore the diverse ways in which people affect the world around them and how they are affected by their surroundings. You will discover how ideas spread and cultures form, and learn how beliefs and architecture are part of a larger culture complex.

Options **F C**

Intensive Reading: A Universe of Reading

Credit **1** The purpose of this course is to provide instruction that enables you to accelerate the development of reading and writing skills, and to strengthen those skills so you are able to successfully read and write grade-level text independently. Instruction emphasizes reading comprehension, writing fluency, and vocabulary study through the use of a variety of literary and informational texts that encompass a broad range of text structures, genres, and levels of complexity.

Options **T F C**

Intensive Reading: Fields of Reading

Credit **1** This course will engage you in interactive text-based discussions, question generation, and research opportunities. You will write in response to reading, and cite evidence when answering text dependent questions orally and in writing. Scaffolding is provided as necessary as you will engage in reading and writing increasingly complex text, and is removed as your reading and writing abilities improve over time.

Options **F C**

International Business

Credit **0.5** From geography to culture Global Business is an exciting topic in the business community today. This course is designed to help you develop the appreciation, knowledge, skills, and abilities needed to live and work in a global marketplace. It takes a global view on business, investigating why and how companies go international and are more interconnected.

Options **F C**

Introduction to Forestry & Natural Resources

Credit **1** In this course, you'll learn more about forest ecology, management, and conservation. You'll explore topics such as environmental policy, land use, water resources, and wildlife management. Finally, you'll learn more about forestry related careers and important issues facing forestry professionals today.

Options **F C**

Introduction to Manufacturing, Production Design, and Innovation

Credit 0.5

Options **F C**

In this course, you'll learn about the types of manufacturing systems and processes used to create the products we buy every day. You'll also be introduced to the various career opportunities in the manufacturing industry including those for engineers, technicians, and supervisors.

Introduction to Military Careers

Credit 0.5

Options **F C**

In this course, you will not only learn about the five military branches—Air Force, Army, Coast Guard, Marines Corps, and Navy—but also have the chance to examine which job you might like to pursue in any of these areas. From aviation, to medicine, to law enforcement, to dentistry, the military can be an outstanding place to achieve your dreams in a supportive and well-structured environment.

Introduction to Social Media

Credit 0.5

Options **F C**

In this course, you'll learn the ins and outs of social media platforms such as Facebook, Twitter, Pinterest, Google+, and more. You'll also discover other types of social media you may not have been aware of and how to use them for your benefit—personally, academically, and eventually professionally as well.

Journalism I

Credit 1

Options **T F C**

Explore a career in journalism and learn how to write a news story, a feature story, and an editorial. Throughout this course, you will learn best practices for conducting research and interviews, analyzing the reliability of sources, and self-editing.

Law and Order

Credit 0.5

Options **F C**

Our lives are guided and regulated by our society's legal expectations. This course focuses on the creation and application of laws in various areas of society. By understanding the workings of our court system, as well as how laws are actually carried out, we become more informed and responsible citizens in our communities and of our nation.

Law Studies

Credit 0.5

Options **T**

What are your rights as an American citizen? In this course, you will investigate aspects of family and consumer law, and learn how the state and federal court systems work. Gain an understanding of the judicial system and examine key differences between civil and criminal law.

Leadership Skills Development I

Credit 1

Options **T F C**

Succeed in high school, college, and beyond by taking your future into your own hands. In this two-semester course, you will learn how to take action, manage your time, chart your goals, and many other leadership techniques.

Leadership Skills Development II

Credit 0.5

Options **F C**

Increase your confidence and build your social skills as you learn how to overcome many of the toughest challenges teens face. Discover how your “super-charged” teen brain really works, so you can make better decisions, have more fun, and achieve more. Learn how to conquer peer pressure, social anxiety, and the unnecessary risks that can derail your future. By the end of your training, you will have new power to direct your own life and lead your classmates.

continued

Music Appreciation

Credit 0.5

Options

This course will provide you with an aesthetic and historical perspective of music, covering a variety of styles and developments from the Middle Ages through the Twentieth First Century. You will acquire basic knowledge and listening skills, making future music experiences more informed and satisfying.

Music of the World

Credit 1

Options

Take your knowledge of music to the next level. Learn about the impact of music and how it represents different cultures while “meeting” musicians and composers and discussing their works. Gain a historical perspective of music and experience a variety of musical styles, from the Middle Ages through the 21st century.

Mythology and Folklore

Credit 0.5

Options

Beginning with an overview of mythology and different kinds of folklore, you will journey with ancient heroes as they slay dragons and outwit gods, follow fearless warrior women into battle, and watch as clever monsters outwit those stronger than themselves. You will explore the universality and social significance of myths and folklore, and see how these are still used to shape society today.

Nutrition & Wellness

Credit 0.5

Options

Nutrition and Wellness prepares you for a healthy life and provides you with the essential skills you need to plan and make healthy and delicious meals for you, your family, and your friends. You’ll learn how to budget for your meals, shop for groceries, and fit cooking into a busy schedule of school, work, and other responsibilities.

Parenting Skills

Credit 0.5

Options

Parenting involves more than having a child and providing food and shelter. Take this one-semester course to explore parenting roles and responsibilities, nurturing and protective environments for children, positive parenting strategies, and effective communication in parent/child relationships.

Peer Counseling

Credit 0.5

Options

Peer counselors help individuals reach their goals by offering them support, encouragement, and resource information. This course explains the role of a peer counselor, teaches the observation, listening, and emphatic communication skills that counselors need, and provides basic training in conflict resolution, and group leadership.

Personal and Family Finance

Credit 0.5

Options

This course introduces you to basic financial habits such as setting financial goals, budgeting, and creating financial plans. You will learn more about topics such as taxation, financial institutions, credit, and money management.

Personal Psychology I

Credit 0.5

Options

Self-knowledge is the key to self-improvement. Sample topics include the study of infancy, childhood, adolescence, perception and states of consciousness. Amazing online psychology experiments dealing with our own personal behavior are featured within this course.

Personal Psychology II

Credit	0.5	Enrich the quality of your life by learning to understand the actions of others! Topics include the study of memory, intelligence, emotion, health, stress and personality. This course features exciting online psychology experiments involving the world around us.
Options	F C	

Philosophy: The Big Picture

Credit	0.5	As you learn about these great thinkers, you'll come to see how and where many of the most fundamental ideas of Western Civilization originated. You'll also get a chance to ask yourself some of the same questions these great thinkers pondered. By the time you've "closed the book" on this course, you will better understand yourself and the world around you, from atoms to outer space, and everything in between.
Options	F C	

Principles of Agriculture, Food, and Natural Resources

Credit	1	In this course, you will learn about all of the steps in that journey, beginning with the history of agriculture through animal husbandry, plant science, and managing our use of natural resources. In this course, you will receive a broad understanding of the subject matter, preparing you for future hands-on learning, participation in Future Farmers of America, and supervised agricultural experiences.
Options	F C	

Principles of Public Service

Credit	1	This course will introduce you to many different careers in this profession and illustrate how they all work together to provide for the common good. The protection of society is one of our greatest challenges, and public service provides a way for people to work together, ensure safety, and provide an indispensable service to those around us. If you've ever contemplated being one of these real-life heroes, now is the time to learn more.
Options	F C	

Psychology I

Credit	0.5	Where do thoughts and memories come from? What are emotions? Why do we behave the way we do? This course will help you to begin to understand the human mind by exploring the research and theories of some of the most brilliant psychologists throughout history. In addition, learn psychological tips that you can use every day, like how to cope and reduce stress.
Options	T F C	

Public Speaking

Credit	0.5	The art of public speaking is one which underpins the very foundations of Western society. This course examines those foundations in both Aristotle and Cicero's views of rhetoric, and then traces those foundations into the modern world. You will learn not just the theory, but also the practice of effective public speaking.
Options	F C	

Reading for College Success

Credit	0.5	This course will provide you with the necessary tools to become successful in both academics and in the workplace. Reading is a vital skill needed to effectively take notes, summarize the main idea, and separate fact from opinion. This course empowers you to achieve your goals in higher education and in the career of your choice.
Options	F C	

Real World Parenting

Credit	0.5	Learn what to prepare for, what to expect, and what vital steps parents can take to create the best environment for their children. Parenting roles and responsibilities, nurturing and protective environments for children, positive parenting strategies, and effective communication in parent/child relationships are some of the topics covered in this course.
Options	F C	

continued

Renewable Technologies: Introduction

Credit 1

Options **F C**

In this course, you'll learn all about the cutting-edge field of renewable energy and the exciting new technologies that are making it possible. You'll explore new ways of generating energy and storing that energy, from biofuels to high-capacity batteries and smart electrical grids. You'll also learn more about the environmental and social effects of renewable technologies and examine how people's energy decisions impact policies.

Restaurant Management

Credit 1

Options **F C**

Restaurant Management will show you exactly what's needed to run a successful restaurant—from ordering supplies, to hiring quality workers, to maintaining inventory, to managing a large staff. Understanding such concepts as food safety, hygiene, customer relations, marketing, and using a point-of-sale system are crucial to being an effective restaurateur, so whether you are hoping to operate a casual sit-down eatery, oversee a fine dining establishment, or buy a food franchise, this course is the perfect first step.

Social Media I

Credit 0.5

Options **T F C**

In this course, you will learn that the world of Social Media revolves around you—your actions, decisions, and interests. You will examine how Social Media has evolved and how your digital footprint makes a bigger impression than your physical one.

Social Problems I

Credit 0.5

Options **F C**

You will become aware of the challenges faced by social groups, as well as learn about the complex relationship among societies, governments and the individual. You will not only learn more about how social problems affect you personally, but begin to develop the skills necessary to help make a difference in your own life and community, not to mention globally.

Social Problems II

Credit 0.5

Options **F C**

You will learn about the overall structure of the social problem as well as how it impacts our lives. Each unit focuses on a particular social problem, including racial discrimination, drug abuse, the loss of community, and urban sprawl, and discusses possible solutions at both individual and structural levels.

Sociology I: The Study of Human Relationships

Credit 0.5

Options **T F C**

You will examine social problems in our increasingly connected world, and learn how human relationships can strongly influence and impact our lives. Exciting online video journeys to an array of areas in the sociological world are an important component of this relevant and engaging course.

Sociology II: Your Social Life

Credit 0.5

Options **F C**

Sociology is the study of people, social life and society. By developing a “sociological imagination” you will be able to examine how society itself shapes human action and beliefs, and how in turn these factors re-shape society itself! Fascinating online videos journeys will not only inform you, but motivate you to still seek more knowledge on your own.

Sports and Entertainment Marketing

Credit 0.5

Options **F C**

In this course, you'll have the opportunity to explore basic marketing principles and delve deeper into the multi-billion dollar sports and entertainment marketing industry. You'll learn about how professional athletes, sports teams, and well known entertainers are marketed as commodities and how some of them become billionaires as a result.

Thinking and Learning Strategies

Credit **1**

Options **F C**

In this course, You will “coach” your “team” of thinking skills to meet academic challenges. Through reading, writing, and math activities, you will develop critical thinking skills and test-taking strategies.

User Interface Design

Credit **1**

Options **T**

This course will help teach you the skills you need to be a web designer, from Search Engine Optimization (SEO) to how to build a website for a client. This course provides honors-level elective credit and fulfills a practical art requirement for high school graduation. Digital Information Technology, Foundations of Web Design, and User Interface Design make up the Web Development POS.

Veterinary Science

Credit **0.5**

Options **F C**

Taking a look at the pets that live in our homes, on our farms, and in zoos and wildlife sanctuaries, this course will examine some of the common diseases and treatments for domestic animals. Toxins, parasites, and infectious diseases impact not only the animals around us, but at times—we humans as well!

World Religions

Credit **1**

Options **F C**

This course focuses on the major religions that have played a role in human history, including Buddhism, Christianity, Confucianism, Hinduism, Islam, Judaism, Shintoism, and Taosim. You will trace the major developments in these religions and explore their relationships with social institutions and culture.

Credit Recovery

When students have not had a successful learning experience they need to recover the learning, and then the credit. FLVS credit recovery courses are based on the FLVS philosophy that the student is at the center of every decision we make. Our courses provide struggling students with innovative course content and standards aligned assessments, designed to get them back on track. Our courses are well-suited for a variety of instructional models: full-time online instruction, blended learning environments, summer school, or concurrent school year credit recovery.

Algebra I for Credit Recovery

Credit	1	Algebra I is the foundation—the skills acquired in this course contain the basic knowledge needed for all future high school math courses. This course is designed to give you the skills and strategies to solve all kinds of mathematical problems. You will also acquire the confidence needed to handle everything high school math has in store for them.
Options	T F	

Algebra II for Credit Recovery

Credit	1	This course allows you to learn while having fun. Interactive examples help guide your journey through customized feedback and praise. Mathematical concepts are applied to everyday occurrences such as earthquakes, stadium seating, and purchasing movie tickets.
Options	T F	

Biology I for Credit Recovery

Credit	1	This Biology course is designed to give you a fundamental look at the characteristics of living organisms and their environment. You will be introduced to the structure, function, diversity and evolution of living matter.
Options	T F	

Chemistry I for Credit Recovery

Credit	1	This course provides a foundation for learning chemistry concepts, including scientific inquiry, interactive experiences, higher-order thinking, collaborative projects, real-world application, and a variety of assessments. Prerequisite: Student has previously completed Chemistry I without achieving a passing grade.
Options	T F	

Economics with Financial Literacy for Credit Recovery

Credit	0.5	Become a more informed consumer, producer, investor, and taxpayer, and learn how your choices directly affect your future. Prerequisite: Student has previously completed Economics with Financial Literacy without achieving a passing grade.
Options	T F	

English I for Credit Recovery

Credit	1	Develop language arts skills by reading, writing, listening, viewing, and speaking. You will learn to use the English language to successfully express yourself. Prerequisite: Student has previously completed English I without achieving a passing grade.
Options	T F	

English II for Credit Recovery

Credit	1	Encounter new vocabulary, refine the grammar and mechanics of your writing, and engage in thought-provoking projects. Throughout the course, you will discover how the human experience is the foundation of the best stories, plays, poems, films, and articles. Prerequisite: Student has previously completed English II without achieving a passing grade.
Options	T F	

continued

English III for Credit Recovery

Credit 1

Options

Acquire the language, reading, writing, and speaking/listening skills necessary for success in college, career, and beyond. Become a critical reader and thinker as you dive deeply into the texts presented throughout this course. You will learn how to effectively research and integrate your findings, as well as cite your sources. **Prerequisite: Student has previously completed English III without achieving a passing grade.**

English IV for Credit Recovery

Credit 1

Options

Choose pieces of literature that interest you; then analyze the subject matter and persuasively express your own ideas. **Prerequisite: Student has previously completed English IV without achieving a passing grade.**

Geometry for Credit Recovery

Credit 1

Options

Geometry is everywhere, not just in pyramids. Engineers use geometry to build highways and bridges. Artists use geometry to create perspective in their paintings, and mapmakers help travelers find things using the points located on a geometric grid. Throughout this course, you will travel a mathematical highway illuminated by spatial relationships, reasoning, connections, and problem solving.

United States Government for Credit Recovery

Credit 0.5

Options

Explore the principles that inspired the Constitution and Bill of Rights and examine each branch of government, the election process, and how you can impact public policy. You will also discover how the United States interacts with other countries. **Prerequisite: Student has previously completed United States Government without achieving a passing grade.**

United States History for Credit Recovery

Credit 0.5

Options

This is a survey course of United States history focusing on the period from the Civil War through the present. The United States began as an experiment in freedom and democracy. Since its establishment, the country and its people have endured social, political and economic revolutions. In this course, you will investigate the people, events and ideas that have shaped the United States.

World History for Credit Recovery

Credit 1

Options

Join Ali and Soo-jin, our modern time travelers, as they journey through history. Discover the connections between world events and eras, from the Roman Empire through the Industrial Revolution, and explore development in our modern world as well as the implications that historical events have on us today. **Prerequisite: Student has previously completed World History without achieving a passing grade.**

Test Prep

ACT Test Preparation

Options **F** **C** Success on the ACT is largely determined by mastery of test-taking skills and strategy perfected through extended exposure to each element of the test itself. This prep course delivers an adaptive learning experience to effectively target your areas of mastery and growth.

SAT Test Preparation

Options **F** **C** Achieve your personal best with our online adaptive SAT course designed specifically to meet the standards of the Redesigned SAT. This technology-enabled course is will change the way you learn, delivering unique paths to meet your exact performance and potential per lesson area.

MIDDLE SCHOOL

Language Arts

for Middle School

Language Arts I

Credit **1**

Options **TFC**

Read short stories and novels, listen to music, and create a commercial. You will also learn how to write like a pro.

Language Arts II

Credit **1**

Options **TFC**

Discover your own ability to write through reading, listening, and analyzing various texts, such as short stories and novels.

Language Arts III

Credit **1**

Options **TFC**

Become a critical reader and thinker using fiction and informational texts. Acquire the tools to understand and express yourself through writing.

Mathematics

for Middle School

Grade 6 Mathematics

Credit 1

Options **TFC**

Through games that reinforce and strengthen mathematics skills, you will have opportunities to demonstrate your knowledge of number manipulation in real-world scenarios.

Grade 7 Mathematics

Credit 1

Options **TFC**

Learn mathematics through animations, applications, videos, games, and real-world scenarios while creating, investigating, and demonstrating your knowledge.

Pre-Algebra

Credit 1

Options **TFC**

Gain a true understanding of higher-level concepts such as functions and systems of equations while experiencing intrigue and fun in this hands-on course full of slideshows, applications, videos, and real-world scenarios.

Science

for Middle School

Comprehensive Science I

Credit 1

Options **TFC**

This introduction to science focuses on energy, force, weather, climate, Earth's systems, and living organisms. Explore topics in depth and build a foundation for concepts covered in Comprehensive Science II and III.

Comprehensive Science II

Credit 1

Options **TFC**

Explore the foundations of science, including energy, Earth's changing features and structures, Earth's history, genetics, heredity, and the organization and interaction of living organisms.

Comprehensive Science III

Credit 1

Options **TFC**

Prepare for high school science courses with this introduction of new topics and review of science basics. You will learn more about the nature of science, Earth and space science, properties of matter, changes in matter, matter and energy, and energy flow.

Social Studies

for Middle School

Civics

Credit 1

Options **TFC**

Explore the rights and responsibilities of United States citizenship and examine the structure and function of federal, state, and local governments. You will learn about geography and economics and the important roles citizens play in their communities.

United States History

Credit 1

Options **TFC**

You will discover that history is full of adventure, colorful characters, and complex plots. Each plot is different and highlights an important story from our nation's past.

World History

Credit 1

Options **TFC**

Travel back in time to discover the secrets and benefits of our world's history. You will learn about China's ancient dynasties, the precision of Mayan astronomy, and India's contribution to medicine, which have formed what we know and who we are today.

World History II (CA, OH, IN)

Credit 1

Options **FC**

Studying history helps connect events from the past to the world around you. You will examine civilizations that have left their mark on history. Join travel agent Mr. Lightfoot in a journey back in time digging through the past and examining its impact on our world today.

Physical Education

for Middle School

Comprehensive PE – Grades 6/7

Credit 0.5

Options **TFC**

You will reach new levels of fitness in this course through sports, dance, aquatics, and more. A friendly cast of course characters will guide you through exercising safely, activities that target different areas of your body, and reaching new goals.

Comprehensive PE – Grades 7/8

Credit 0.5

Options **TFC**

This course will provide you with practice in diverse sports skills and game strategy, leading to a physically active lifestyle. You will explore nutrition and peer pressure while learning how to make effective decisions.

Fitness – Grade 6

Credit 0.5

Options **TFC**

You will explore health and fitness topics with a crew of virtual characters. Among them is Coach Cardio, who will help measure your increasing fitness level as you learn to keep your body physically fit.

World Languages

for Middle School

Spanish Beginning

Credit 0.5

Options **TFC**

You will learn to ask for directions, order food in a restaurant, and talk about the weather, all without being embarrassed by your accents. New words and phrases are introduced with text, pictures, and audio clips that demonstrate proper pronunciation. Acquire skills to read, write, and speak basic Spanish. You will also learn the basic Spanish grammar that will make your sentences come out right.

Spanish Intermediate

Credit 0.5

Options **FC**

New words and phrases will be introduced with pictures, audio clips, videos, and examples. You will learn basic Spanish grammar to help you form sentences correctly, build your fluency, and provide you with a more thorough understanding of the Spanish language. There will be many opportunities to practice what you learn through interactive activities in the form of games and written, listening, and speaking exercises.

Electives

for Middle School

Career Exploration

Credit 1

Options **FC**

What career are you best suited for? In this course, you will explore career options in many different fields including business, health science, public administration, the arts, and information technology.

Creative Photography I

Credit 1

Options **T**

Learn and apply basic camera skills to photograph animals, people, and landscapes. You will select subjects, take photographs, and print and display memories in your own portfolio. **You must have access to a digital camera (cell phone cameras do not meet the requirement) to take this course.**

Critical Thinking, Problem Solving, and Learning Strategies

Credit 1

Options **TFC**

Gain strategies to find important information quickly, transfer it to long-term memory, and perform better on assignments and tests. You will learn to become a more efficient learner, find balance, and prioritize goals.

Guitar I

Credit 1

Options **T**

Whether you have been playing the guitar forever, or have never touched one, this course will jumpstart your music education or continue to build on your existing skills. You will learn to play a wide variety of styles by learning fundamentals of music and basic guitar skills as you journey on to becoming a skilled guitarist and musician. **No prior music experience is necessary, but you must have your own six-string guitar and a way to record and submit a video performance to your instructor.**

Journalism

Credit 1

Options **F C**

Who? What? When? Where? Journalism provides us with the answers to these questions for the events that affect our lives. In this course, you will learn how to gather information, organize ideas, format stories for different forms of news media, and edit your stories for publication.

Orientation to Art 2D

Credit 0.5

Options **F C**

Using the tools, tricks and techniques of professional artists, you will create people and objects that leap off the page. You will start with your sketchbook, and put down your ideas and impressions. You will develop those ideas by using lines, colors, composition and perspective. You will finish with a collection of original artwork that tells the story your way.

Peer Counseling

Credit 1

Options **F C**

Learn how to manage your time, set goals, and get organized while. Give your body the energy it needs and learn how to handle stress in positive ways. By the end of your training, you will have higher confidence, new skills for success, and dozens of proven strategies to solve problems quickly and achieve your dreams.

Photography

Credit 0.5

Options **F C**

In this course, you will learn and apply fundamental skills to use a camera and take photographs of animals, people, and landscapes. You will gain an understanding of how photography can be a means of documentation or high art. You will examine photographic careers and explore self-reflection to progress your creative growth as you develop a photographic portfolio.

Reading I

Credit 1

Options **F C**

From Florida to Alaska, there will be lots of things to see. In this course, you and your teammates will travel across the country to compete in local soccer tournaments. The goal is to enhance your skills as an active reader, and give you strategies for understanding what happens in the stories you read. With a good book, you can go anywhere. The better you can read, the farther you can go.

GET STARTED WITH YOUR SOLUTIONS.
